SalahEldin Kamil

CyberSecurity Analyst

salaheldin.fikrikamil@gmail.com | +254703745505 | Nairobi, Kenya | 28/12/2001 | LinkedIn | Github | Blog

SUMMARY:-

Cybersecurity professional specializing in malware analysis and SOC operations, with hands-on experience in malware reverse engineering, YARA rules creation, and alert investigation. Passionate about reverse engineering, threat intelligence, and continuous learning, with a strong drive to protect systems and support effective security operations.

TRAININGS & COURSES:-

Cyber Security Bootcamp 02/2024 – 03/2024
Information Technology Institute (ITI) Sponserd by Zinad IT Cairo, Egypt

This bootcamp is specifically designed to prepare individuals for real-world challenges in the field of cybersecurity. One of the highlights of this training program was the Capture The Flag (CTF) competition, which provided participants with hands-on experience in tackling various security scenarios:

- **Network Concepts & Attacks**
- **Web Concepts & Attacks**
- **Forensics**
- **Cryptography**
- **Reverse Engineering**

CyberTalents Trainee 08/2023 – 09/2023
Information Technology Institute (ITI) Sponserd by CyberTalents Cairo, Egypt

intensive online training program jointly organized by the Information Technology Institute (ITI) and CyberTalents, focused on the fundamentals of cybersecurity. Throughout the course, we delved into crucial topics such as:

- **Introduction to Cybersecurity**
- **Network Concepts & Attacks**
- **Web Concepts & Attacks**
- **Forensics**
- **Cryptography**
- **Reverse Engineering**

Advanced Malware Analysis 09/2024
Issued by MaharaTech ITI Learning Platform

- **Debugging & reverse engineering tools** (x64dbg, IDA, plugins, breakpoints, patching, tracing)
- **Malware techniques & evasion** (injection, persistence, privilege escalation, anti-debugging, encryption/encoding)
- **Advanced malware analysis** (Office, PDF, JS, PowerShell, .NET, Java, AutoIt, Python samples)
- **Mobile & practical analysis skills** (Android APK analysis, ADB, emulation, real-world malware cases & deobfuscation)

Malware Reverse Engineering 08/2024
Issued by MaharaTech ITI Learning Platform

- **Windows internals** (processes, threads, memory, registry, handles)
- **x86 assembly & instruction types** (data, arithmetic, control flow, etc.)
- **Code disassembly analysis skills** (stack layout, variables, loops, structures in assembly)

SOC Level 1 Tryhackme Path
This path introduces a wide array of essential defensive security topics and real-world analysis scenarios.

- Learn SOC tools and operations
- Explore network and web attacks
- Monitor endpoints for threats
- Utilise SIEM to handle incidents

PROJECTS & MALWARE ANALYSIS WRITEUPS:-

Evelyn Stealer

Reverse engineered an Evelyn Stealer variant, analyzing multi-stage execution, data exfiltration, and evasion techniques. Demonstrated threat actor techniques including credential harvesting, process injection, and anti-analysis mechanisms, and developed a YARA rule for detection.

Adobe Reader Zero-Day

Analysis of a Malicious PDF with Embedded JavaScript & Multi-Stage Payload

This report documents the findings: embedded JSFuck-obfuscated JavaScript, a hidden AcroForm payload, multi-layer AES-CTR decryption, and covert C2 communication via abused PDF RSS APIs.

Kalim Backdoor

Reverse engineered Kalim Backdoor, focusing on remote access, persistence, and command execution capabilities. Demonstrated attacker techniques including backdoor communication, system control, and stealthy persistence mechanisms, and developed a YARA rule for detection.

Stealc Worm

Reverse engineered a variant of Stealc famliy, analyzing data exfiltration with self-propagation. Demonstrated the threat actor techniques including credential theft and lateral movement.

TECHNICAL SKILLS:-

Malware Analysis Reverse Engineering
Static analysis - Dynamic analysis

YARA

Operating Systems Internals

LLM

IDA Pro

Intel X86 ,X64 Assembly

Linux Bash Scripting

Phishing emails Analysis

X64dbg

C|C++|Python + OOP

Endpoint Security (EPP, EDR)

SEIM Solutions(Qradar ,Splunk,Elastic)

AWARDS:-

First Place on MENA region and the 14th place Globally in CSAW24 CTF Qualifications 09/2024
csaw.io

3rd Place at ICMTC-CSC CTF Finals 2024 & 6th in Quals 07/2024
Hosted by Military Technical College in Egypt & EG-CERT

3rd Place at NahamCon CTF 2024 05/2024
Hosted by JustHacking

2nd Place at Cyber Champions CTF Quals 03/2024
Zinad IT & Information Technology Institute

80th Place at BHMEA2023 CTF Finals & 34th in Quals 11/2023
BlackHat Mea & NEOM & Saudi Federation for Cybersecurity Programming and Drones

2nd Place at ITI & CyberTalents CTF 09/2023
Information Technology Institute & CyberTalents

34th Place at ASCWarGames Qualification CTF 08/2023
ASCWarGames

5th place at IEEE Victoris 2.0 CTF 2023
Institute of Electrical and Electronics Engineers (IEEE)

43th place at Google Code jam (Problem Solving) 2022
Google

54th at ICPC Egyptian CPC 08/2021
The International Collegiate Programming Contest

VOLUNTEERING & STUDENT ACTIVITIES:-

Member at 0xL4ugh Team present
We create internal, external CTFs, and we participate in nearly all the big Competitions inside outside of Egypt.

CAT Reloaded 09/2022 – 2024
Cyber Security Reverse & Malware analysis Head
Helped a group of cyber security students to sharpen their skills by:
- Walking through a road map.
- Providing technical sessions.
- Supervising technical tasks.

ICPC (International Collegiate Programming Contest) 08/2020 – 08/2023
Technical Mentor & Media Head
ICPC Mansoura is one of ICPC Communities in Africa & Arabia Region. An international non-profit organization dedicated to annual multi-tiered competitive programming competition among the universities of the world.
Helped a group of Computer Science & Non-Computer Science students to sharpen their skills by:
- Providing technical sessions..
- Managed volunteers in applying the team's vision via social media.

EDUCATION:-

Bachelor of Computer & Information Science 08/2020 – 08/2024
Faculty of Computer & Information Sciences - Mansoura University Mansoura, Egypt

LANGUAGES:-

Arabic
Native

English
IELTS: 6
